Enterprises, industry, agriculture, and the real economy are where fortune is stored.

要先商后政，先介绍企业家，让企业家坐前排；要先外后内，不远万里来的外商更要如此

During meetings, we should put business before politics. We need to introduce the entrepreneurs first and seat them in

the front rows. We should give priority first to the foreign guests, especially to those foreign entrepreneurs coming to China from afar, then comes the domestic ones.

湖北在长江中游城市群中居于要冲，要主动作为，承担更多的职责

Strategically located among the cities in the middle reaches of the Yangtze River, Hubei needs to be proactive and shoulder more responsibilities.

“重”就是尊重、倚重、重视。全民、全社会都要重商、重企、重视经济，以创造财富为重，以合法致富为荣

Pro-business means that the whole society should respect entrepreneurs and enterprises, appreciate their value, and focus on economic development. We should value creation of wealth and be proud of getting rich through legal means.

发达国家搞工业项目，很少靠银行贷款，都是靠资本市场直接融资。这方面，我们要舍得付出成本代价

Industrial projects in developed countries generally raise fund directly from the capital market, rather than relying on bank loans. In this regard, we should be ready to pay for

the cost.

必须确保工业，真正把工业放在应有的突出位置，加大“第一”的力度，体现“第一”的地位，坚定不移地推进工业强省战略

We must ensure the (sound) development of industry, give priority to it, emphasize its "Number One" position, and unswervingly push forward the strategy of invigorating the province through industry.

We will continue to improve our investment environment. Let me emphasize that we will attach great importance to our investment environment in our economic work in 2012.

The competition of investment environment is the key to competition (between) among different places.

全省各方面都要体现公平正义。该打击的要打击，打击不法商人，打击损害社会利益、偷逃税收、制假售假的行为，这是维护公平正义

Equality and justice should be upheld in all aspects of our work in the province. To maintain equality and justice, we will crack down on illegal merchants and those who damage public interests by evading taxes and producing and selling fake goods.

既要看总量还要讲质量，既要看绝对进步还要看相对进步

(We should evaluate our development) in perspective of not only quantity but also quality, not only absolute progress but also relative improvement.

县域经济是国民经济的重要基础。强省之基在于强县，兴省之本在于兴县

County economy is the important foundation of national economy. A province thrives on prosperous counties.

工业是财富之源，是支撑跨越式发展的“脊梁”

Industry is the source of fortune and the backbone supporting leap-frog development.

没有新型工业化、农业现代化就没有城镇化，城镇化的核心是产业，没有产业的依托，就像大厦没有梁和柱子一样，是盖不起来的

The urbanization cannot be achieved without new

industrialization and agricultural modernization. Its core is industry. The urbanization cannot be achieved without industry, just like a large building cannot be built without beams and pillars.

坚持以园区为主要载体，大力抓好工业园区建设，推进集中、集约、集群发展，形成县域经济主要增长极

To insist on developing with parks as the main carrier, devote major efforts to the construction of industrial parks, promote centralized, intensive and cluster development to form the major growth pole of county economy.

农业现代化有三个特征：工业化、市场化和依靠科技进步

There are three features of agricultural modernization: industrialization, marketization and reliance on S&T development

工业化的农业、食品产业是永远的朝阳产业

The industrialized agriculture and food processing are always sunrise industries.

发展民营经济，很重要的一点是要大力倡导和推动全民创业

A very important factor for developing private economy is to encourage and foster self-employment among the people.

必须有这样的分母效应，才能孕育产生大企业

Without this denominator effect, there will be no large enterprise.

只有一棵树不可能地长成参天大树，必须要有一片树林才有可能

A single tree could not possibly grow into a towering one alone, it could be possible in a forest.

当前区域竞争更多地体现在环境竞争上，发展环境就是核心竞争力

The current regional competition is more represented by the competition of environment. The environment of development is the core competence.

投资环境最核心的问题是企业家和企业的感觉

The most essential element of investment environment is the feeling of entrepreneurs.

我们一定要立志创造全国最优的投资环境，不加“之一”，就是要有这个气派，不给自己找借口

We must be determined to build the only best investment environment in China, without saying "one of ". We should be so confident and find no excuse.

最优秀的人是干出来的，一开始就“之一”，就会有“之二”“之三”，一开始取位就低了一级

The best talents are forged through hard work. If we regard him "one of the best" at beginning, we will have the second "one of the best" and the third "one of the best". We would pick up lower goal at first time.

加快转变经济发展方式，是对我们政绩观的检验，是对世界观、价值观的检验，是对发展能力的检验

We will accelerate the transformation of economic development pattern. It is the test to our viewpoints on political achievements, outlook of the world and values. It is also the test to our development capabilities.

GDP还没有过千亿，就已经感受到资源和环境捉襟见肘，说明经济发展方式亟待转变

The GDP has not exceeded 100 billion RMB Yuan yet but we are facing severe challenges from resources shortage and environmental pollution, which shows that it is urgent to transform the economic development pattern.

对于引来的项目，必须认真审核，不能“萝卜快了不洗泥”

The introduced projects should be examined carefully. We should not sell muddy carrots even when they are fast sold.

多大的胸怀干多大的事业，多高的境界收获多高的效益，站的高度不同，收获就不同

Broader mind brings about bigger achievements; higher spiritual level brings about more benefits. He who stands high sees more.

发展不能光靠硬资源、硬投入，更重要的要靠软资源，靠体制机制的创新

Development should not only depend on "hard" resources and "hard" investment, but more importantly on "soft" resources---the innovation in systems and mechanisms.

我之资源为天下用，天下资源为我所用

We share our resources with the world, and the world share theirs with us.

基层干部是落实层、执行层，好比水利工程的“最后一公里”

Cadres at the basic level are the policy-implementers and action-takers, just like the “last kilometer” of an irrigation project.

“最后一公里”打不通，我们的方针政策、工作部署就会落空
Without unblocking the “last kilometer”, all our guidelines, policies and work-deployment would be done in vain.

Agriculture should be led by the concept of industrialization, armed by the industrial equipment, and supported by the achievements of industry, so the up-ward and down-ward extension of its industrial chain will be promoted.

城镇化不能“不及”也不能“过”过犹不及

Urbanization should not be left insufficient, nor should it be overdone, since going too far is as bad as not going far enough.

脱离了工业化的城镇化是维持不下去的，超过工业化的承载能力搞城镇化也持续不了

Urbanization without industrialization is unsustainable, and is even so when it exceeds the latter' s load capacity.

国际金融危机以后，国内经济格局深刻调整，湖北成为内需的前沿

After the global financial crisis, the drastic changes of China' s economic situation put Hubei at the forefront of domestic demand expansion.

要“多层次、诸阶段”并进，既要抓要素驱动，又要抓投资驱动、创新驱动和财富驱动

Various levels and stages should be applied simultaneously, and all types of economic drivers should be activated such as production elements, investment, innovation and wealth.

任何时代的先进分子特别是领导者都应该勇于担当

Advanced individuals and leaders especially, in whatever times, should shoulder their responsibilities.

红色基因、革命传统最重要的内涵是敢想敢干，敢为人先

The most important content of the Red Gene and the

Revolutionary Tradition is the audacity to conceive, act and take the lead.

比发展不比数字，比时效不比形式，比长远可持续不比一时之功，比实干不比套路

We should engage in the competition of real development but not numbers, of time efficiency but not forms, of sustainability but not temporary achievements, and of actions but not Tricks and methods.

年轻干部更要做坚定理想信念的突击队和生力军

Young cadres should be the commandos and the vital force with solid beliefs and ideals.

作为一名领导干部，联系群众是“最大优势”，脱离群众是“最大危险”，服务群众是“最大责任”，伤害群众是“最大罪孽”

As a leader, maintaining close ties to the masses is his biggest advantage, alienating from them his biggest danger, serving them his biggest responsibility, and hurting them his biggest crime.

我们不能“贵族化”，就是说各级各类组织不能把工作局限于小范围、小圈子，而应该立足于团结服务最广大的人民群众
We should not be aristocratic, that is to say, the leading organizations at all levels and of all types should not limit their work in a small scope and circle. Instead, they should unite and serve the greatest majority of people.

这些年来，我们特别强调科学发展，跨越式发展是一个共建共享的过程，不要忘记民生，也是基于这样一种考虑
In recent years, we have especially been emphasizing that it is a all-over constructing and sharing process for scientific and leap-forward developments. It is based on this concept that we will never forget the people' s livelihood.

困难艰险是财富，躲避困难艰险就是躲避年轻干部最佳的发展机遇，就是躲避成长的机会和前途
Difficulties and hardships are gifts. Shunning them means shunning the best opportunities of development for young cadres, means shunning opportunities and prospect of growth.
